

## 09) I WISH I WERE YOUR PHONE

Here you go again, phone in your face  
I simply can't win, not at this pace  
You love that phone, way more than me  
I'm so alone and jealous of this thing you see?

I wish I were your phone  
I'd never be alone  
Just like I am now, Just like I am now, Just like I am now

Off to church we go, and everything is fine  
And then OH NO! It rings at sermon time  
You had the nerve to answer it  
It cuts me like a sword  
This call you better quit, unless it is the LORD!

I wish I were your phone  
I'd never be alone  
Just like I am now, Just like I am now, Just like I am now...

If your phone had an app that told you how I feel  
You'd throw that thing in the river and discover that I'm real  
I've never felt more stupid around your smart phone  
I think it's time to send you a text that says this dog needs a  
bone

I wish I were your phone  
I'd never be alone  
Just like I am now, Just like I am now, Just like I am now...
